

G 1/4 - G 1 Futura Regulators

- Made as per ISO 6953-1 standard.
- Fitted with 'Rolling Diaphragm' to give quick response time.
- Built - in overpressure relieving function.
- High flow rate with low load losses.
- Stable set pressure regardless of upstream variations.
- Lockable pressure adjusting knob.

PART LIST

NO.	DESCRIPTION	QTY.
1	Pressure adjusting knob	1
2	Lock nut	1
3	Housing	1
4	Threaded brass insert for port connection	2
5	Pressure gauge port	2

SPECIFICATIONS

Medium	Filtered Compressed Air (Lubricated or Unlubricated)				
Design	Rolling diaphragm type				
Mounting	Line / Wall Mounting or Bracket mounting / Panel mounting				
Connection	G 1/4	G 3/8	G 1/2	G 3/4	G 1
Standard nominal flow rate*	850 l/min.	1500 l/min.	1500 l/min.	2310 l/min.	15000 l/min.
Maximum inlet pressure	12.5 bar				
Working pressure range	Std : 0 - 8 bar Optional : 0 - 4 bar, 0 - 12.5 bar				
Temperature range for optimal performance	5° - 50° C				
Material	Housing : Technopolymer with brass inserts Adjusting Knob : Technopolymer Seals : Nitrile				
Weight	0.125 Kg.	0.325 Kg.	0.325 Kg.	0.755 Kg.	1.721 Kg.

* (at P = 6.3 Bar & ΔP = 1 Bar)

G 1/4 - G 1 FUTURA REGULATOR

PORT SIZE	A	B	Ø C	D	E	F	G THDS.	H	MOUNTING HOLES	I	J	K
